

## **CNC Lathe and Mill Setter/Operator**

Salina Machine has an opening for an experienced CNC Lathe and Mill Setter/Operator. We continue to grow and need to add to our team! We are looking for a skilled Lathe and Mill Setter/Operator for a full-time 40-hour/week first shift (10-hour shifts). This position is accountable for setting up and running programs for Okuma 5-axis, Horizontal, and Multus machines.

### **Machinist Responsibilities:**

- Tooling up machines and proofing programs
- Check programs and run a simulation prior to the CNC operation running the program on the machine and making the part
- Monitor and change cutting tools as needed
- Operate equipment utilizing proper speed, feed rate, and depth of cut to achieve optimal part cost, quality, throughput, and on time customer deliveries
- Ensure that the machines and programs operate correctly and that products meet specifications
- Maintain a clean and neat work area

### **Machinist Requirements:**

- High School diploma (or equivalent) required
- Associates in Engineering Technology or other related field from a technical institute and/or advance apprenticeship is an advantage
- 3-5 years of CNC Setup & Operation experience required with experience in programming an advantage
- Experience with a wide range of part complexity and materials
- Be a self-starter and work autonomously
- Will employ critical thinking, logic and reasoning to troubleshoot and solve problems
- MasterCAM proficiency desired

Job Type: Full-time

Pay: \$18 – \$25 per hour
