

Maintenance Tech

Sabetha, Kansas, USA

Full time

We make processes work to make life easier and better! That is our claim and the core of everything we do. More than 140 years of experience and a strong brand stand behind the name Schenck Process. As one of the world's leading companies in the field of applied measurement and process technology, we work every day to develop new innovative solutions and sustainable process technologies for a wide range of industries. Are you looking for complex tasks and exciting challenges in a highly international environment? Then you have come to the right place! Our open and collaborative corporate culture allows you to develop freely, contribute your individual strengths and grow together with us.

Diversity of backgrounds makes Schenck Process stronger and is essential to our culture and our operating as a world-class competitor. Therefore, we look forward to receiving your application regardless of race, color, religion, gender, sexual orientation, gender identity, national origin, age, disability, genetic information, marital status, or veteran status.

Your responsibilities

The Maintenance Technician is responsible for resolving facility electrical maintenance to include installation & repair of electrical systems & components of industrial machinery & equipment, following electrical code, manuals, schematic diagrams & blueprints.

Your responsibilities:

- Service all electrical, plumbing, and mechanical systems as required to maintain reliable and efficient building operations.
- Assist with service and construction contracts to reduce costs and provide quality assurance.
- Maintaining a safe work environment for building occupants by understanding and ensuring proper use of equipment and chemicals, recognizing potential problems, and reporting as needed.
- Ensure continuity of operations by understanding, maintaining, and repairing manufacturing equipment.

Your qualifications

- Demonstrate understanding and knowledge of general maintenance, carpentry, painting, refurbishing, plumbing, electricity, appliances, and HVAC in both theory and practical application.
- Ability to prioritize and multi-task, handling multiple projects, duties, and tasks.
- Ability to communicate clearly and concisely, both orally and in writing.
- Good analytical skills, able to troubleshoot problems and identify solutions.
- Minimum of 5 years experience as a Maintenance Technician in a commercial and/or industrial environment.
- High School diploma or equivalent.
- Technical degree preferred.

810 S. Old Hwy 75, Sabetha, KS 66534, United States of America
