

I am moving to Salina the first of June and will be in need of private health care. The hours will be daily from 7 am to 9 am and from 8 pm to 10 pm. Those hours can be varied slightly. I would like 2-4 people to cover all shifts. For example, one person to work 3 mornings a week, one to work 4 mornings and the same for evenings. The person must have a current CNA license at the minimum. The person must like dogs and not be allergic to dogs as a service dog is in the home.

Duties will include but are not limited to help with showering, toileting, dressing, changing bed linens, doing flexing exercises for me, and occasionally preparing breakfast during the morning shift. Evening will include undressing, personal hygiene, doing flexing exercises, and settling into bed. The person needs to know how to watch for pressure sores and other skin conditions. There will be no heavy lifting.

I am fairly independent and active, but can not manage everything on my own. After a get to know each other period of 30-45 days, this will be a permanent part time job.

Salary will be \$15/ hour.
